News

- A Chinese engineer at San Jose firm Lumileds exfiltrated company secrets to a Chinese company.
- Oracle has been accused of defrauding investors.
- Hitachi is increasing its telecommuting staff to 100k employees.
- 4 Amazon bugs have been incorporated into an RCE.
- The Snapchat source code has been leaked.
- There was a local escalation in Microsoft Edge.
- The Taiwan TSMC has been infected (alternate source).
- 200,000 consumer routers in Brazil were hijacked to mine cryptocurrency.
- There is a new attack that speeds up WPA2-PSK attacks.

Notes

Starts at **15m23s**.

I was drinking Jefferson's Reserve bourbon (and chai). Paden was drinking nothing. Jthan was drinking Wasmund's Rappahannock Pot-Stillied Single Malt Whiskey. Jason was drinking nothing.

- <https://twitter.com/textfiles> Scott is with us!
 - He runs a personal digital archive...
 - And curates for the Internet Archive as well!
 - The talk that we all reference (where he was sued for 2 billion dollars) can be seen here.
 - The Yahoo! content he mentioned is this, you can find it here.

Sysbadadministration Award

In this segment, we highlight system administration mistakes. Think of them as the IT equivalent of the Darwin Awards.

We skipped the Baddie for this episode!

Errata

- None so far!
