Quicklisten:

We talk about why it's hard to recycle servers/computers, and then talk a lot about straws. And Tiger King, for some reason (THANKS, JTHAN).

## Just the Tip

- Be aware of deployment schedules! Don't do it right before or during a holiday break.
- Also, Paden got an Elecom Huge, and it really is huge

## Notes

Starts at **16m47s**.

I was drinking Breckenridge Bourbon. Paden was drinking PBR. Jthan was drinking Miller Lite.

- Announcements!
  - The S5 Shitshow is coming up! See the post for more information.
  - We'll probably have a couple of game nights over the hiatus (late December to early February).
- Recycling computers/servers
  - The EPA website has some significantly good resources...
  - But it's kind of pointless because often, recycling isn't actually done. And when it does, it's certainly not done domestically. Namely because...
  - It's immensely hard/toxic to recover any substantial cost-sensible amount of material.

## 15 Clams

In this segment, Jthan shares with you a little slice of life. The title is a reference to this video. (2m16s in)

Starts at **45m56s**.

Jthan talks about Boto, Moto, Localstack, and other bullshit AWS things.

## Errata

- I don't know why we spent so much time talking about Virginia.

- During the intro when talking about what we're drinking, I say I "have a strong time trusting" Jthan's opinions. Obviously, I meant "hard time" or "difficult time".
- I missed a **prime** "yo' mama" joke during Paden's tip when he was talking about the Huge. I'm still not over it.
- The Amazon API changes frequently enough to make mocking it a pain, Jthan.
