Quicklisten:

OUR LAST EVER SHITSHOW is on December 3, 2021! Time TBA but it'll probably start a bit late.
In this episode to contrast our last one (S6E16),

- Just the Tip
- Notes
- 15 Clams
- Errata
- Music

Just the Tip

*Paden reminds you that if you have a filesystem that you're trying to free up some space on and deleting data doesn't seem to free it, you should lsof and find any process holding that directory/file(s) open and stop it.

** And check your inode usage too!

** This happens due to an improperly closed file handler, a filesystem that has not synced yet, etc.

Notes

Starts at **16m18s**.

I was drinking a Troegs Sunshine Pilsner. Paden was drinking his Deep Eddie vodka with apple juice. Jthan was drinking Angel's Envy bourbon.

- Enriching projects/"wins", and where we're headed in our career
 - Jthan was responsible for a large amount of data.
 - He wants to be a storage engineer and work more with data storage/usage in the future.
 - He also wants to min/max optimizations and be a professional ricer.
 - I really enjoyed digging into LDAP and systems interactions.
 - Moving forward, I'm interested in working with large enterprise-scale systems.
 - Paden has learned a lot about system stability.

15 Clams

In this segment, Jthan shares with you a little slice of life. The title is a reference to this video. (2m16s in)

Starts at **45m05s**.

Jthan talked a lot about ducks and clams. Again.

He also wants to know why cats like can openers.

Errata

- Jthan is indeed a sussy baka.
- The Shitshow is coming up! December 3, 2021. Time TBA but it will almost assuredly be in the evening.
- On listening back, it **definitely** sounds like Jthan said "Anal Envy" that one time. I'm with you, Paden.
