Notes

Hoo boy. We apologize for the quality of this one; we're still working on finding a good recording configuration and cutting our teeth on sound editing. The silence gaps are a bit unnerving as well. Well, the good news is we can only go onwards and upwards as we learn!

In this episode, Brent and Jonathan talk about nothing at all except themselves, vidya games, and Colorado. We give you a chance to get to know us a little bit better, and hope you give us the chance to know you a bit better too!

Errata

This is the only episode where we have a track playing in the background for the entirety of the episode. People ended up hating that, so we left it out in later episodes. It's not credited in the music section of the notes, but the track is "Funky Suspense" by Bensound (CC-BY-ND 3.0)
